PROFESSIONAL SUMMARY

IIT Madras BS Data Science student with hands-on experience building Python/Flask web applications, REST APIs, SQL-backed systems, and deployed user-facing products. Strong foundation in programming, backend development, database management, and problem solving**.**

EDUCATION

IIT Madras | Madras — May 2024 - May 2028
B.S. in Data Science and application — *CGPA : 8.42/10*
Relevant Coursework:
- Programming, Data Structures & Algorithms using Python
- Database Management Systems
- Modern Application Development II
- System Commands
- Modern Application Development

G.L. SCHOOL | Agra — 2022 - 2024
CBSE Class XII — *Percentage : 79.6%*

Shiv Shakti H.S. School | Agra — 2020 - 2022
State Board (U.P.) Class X — *Percentage : 83%*

PROJECTS

Trekking Management Application | Github — May 2026 - Jun 2026
Full-Stack Developer | IIT Madras — MAD-I | S Grade
- Developed a **3-role trekking management application** supporting Admin, Trek Staff, and Trekker workflows, including authentication, trek management, bookings, and trekking history.
- Implemented database-backed CRUD operations using **SQLite and SQLAlchemy**, with RESTful API resources for managing treks, users, and bookings.
- Engineered backend validation and business rules to prevent overbooking, enforce role-based access, restrict trek management to assigned staff, and maintain booking history.

Technologies / Tools Used : *Python, Flask, SQLite, SQLAlchemy, Flask-RESTful*

JEE/JoSAA Counselling Platform | △ Vercel — Mar 2026 - Present
Full-Stack Developer | Personal Project
- Developed and deployed a student-focused JEE/JoSAA counselling platform, helping students explore and evaluate college options during the counselling process.
- Attracted **100+ users** during the JoSAA & CSAB counselling period by providing an accessible, student-oriented platform for counselling and college-related information.

Technologies / Tools Used : *React, Python, Sqlalchemy, JavaScript, HTML5*

SKILLS

Programming Languages :	Python, C++, JavaScript, C, SQL
Backend & APIs :	Flask, Flask-RESTful, REST APIs, Jinja2
Frontend :	React, Vue, HTML5, CSS, Bootstrap
Tools & Platforms :	Git, GitHub, Docker, Linux
Databases :	SQLite, PostgreSQL, MySQL, SQLAlchemy
Cloud & Deployment :	AWS, Vercel

CERTIFICATIONS

AWS Academy Cloud Foundations | Credential — Aug 2026
Amazon Web Services
Covered: AWS Architecture, AWS Cloud & Core Services, Amazon S3, AWS Pricing & Support *Training and Certification*
